

REMARKS

Reconsideration of the rejections set forth in the Office Action mailed January 13, 2006, is respectfully requested. Claim 83 has been amended to include the limitation of dependent claim 85. Therefore, this amendment was made without the introduction of new matter. Claim 85 has been cancelled, without prejudice. Claims 83-84, 86-91, 95, 99-101, 104-105, and 107 remain pending in this case.

Art Rejections

Claims 83 and 84 were rejected under 35 U.S.C. § 102(b) as allegedly unpatentable over Foulds et al. "Biosensors: Current Application and Future Potential" BIOESSAYS 3(3): 129-32 (Sept. 1985). Without conceding the propriety of the rejection, Applicants have amended claim 83 to include the limitation of dependent claim 85, which the Examiner has indicated as allowable. Claim 84 depends from claim 83 and is allowable for the same reasons as applicable to claim 83. Therefore, Applicants respectfully request withdrawal of the rejection and reconsideration of the claims as amended.

Double Patenting

Claim 91 is provisionally rejected on the grounds of non-statutory obviousness type double patenting as allegedly unpatentable over claim 91 of co-pending application No. 10/371,066. The '066 application has been abandoned. (See Exhibit A) Therefore, the rejection over this application is now moot. Applicants respectfully request withdrawal of this rejection.

CONCLUSION

For all the foregoing reasons, Applicants assert the claims are in condition for allowance. Favorable action on the merits of the claims is therefore earnestly solicited. If any issues remain, please contact Applicants' undersigned representative at (949) 760-9600. The Commissioner is hereby authorized to charge any fees that may be required in connection with the filing of these documents to Deposit Account No. 50-2862.
